100% RECYCLED GLASS

Our product is aligned 100% with circular economy and our production process based exclusively on recycled glass, thus protecting the environment and mitigating climate change. For over four decades we have been working sustainably with recycled window glass, driven by a steadfast commitment to quality and respect at every turn regarding products, raw materials, people and the environment.

WHY CHOOSE EZARRI?

PERFECT FOR SWIMMING POOLS

The almost zero water absorption rate and resistance to chemical corrosion help to keep Ezarri pools unaltered over time.

ECO-FRIENDLY

Our origins are rooted in sustainability. 100% recycled glass. 14021 Certification is our seal of approval.

CUSTOMISATION

Our mix generator allows you to create your own composition from our wide range of mosaic tiles. Or if you prefer, we can make a bespoke design for your project using our digital print system.

NO SHARP EDGES

Our Ezarri range is made with curved glass features, no sharp edges and completely smooth.

JOINT POINT TECHNOLOGY

See the next page for more information

JOINTPOINT

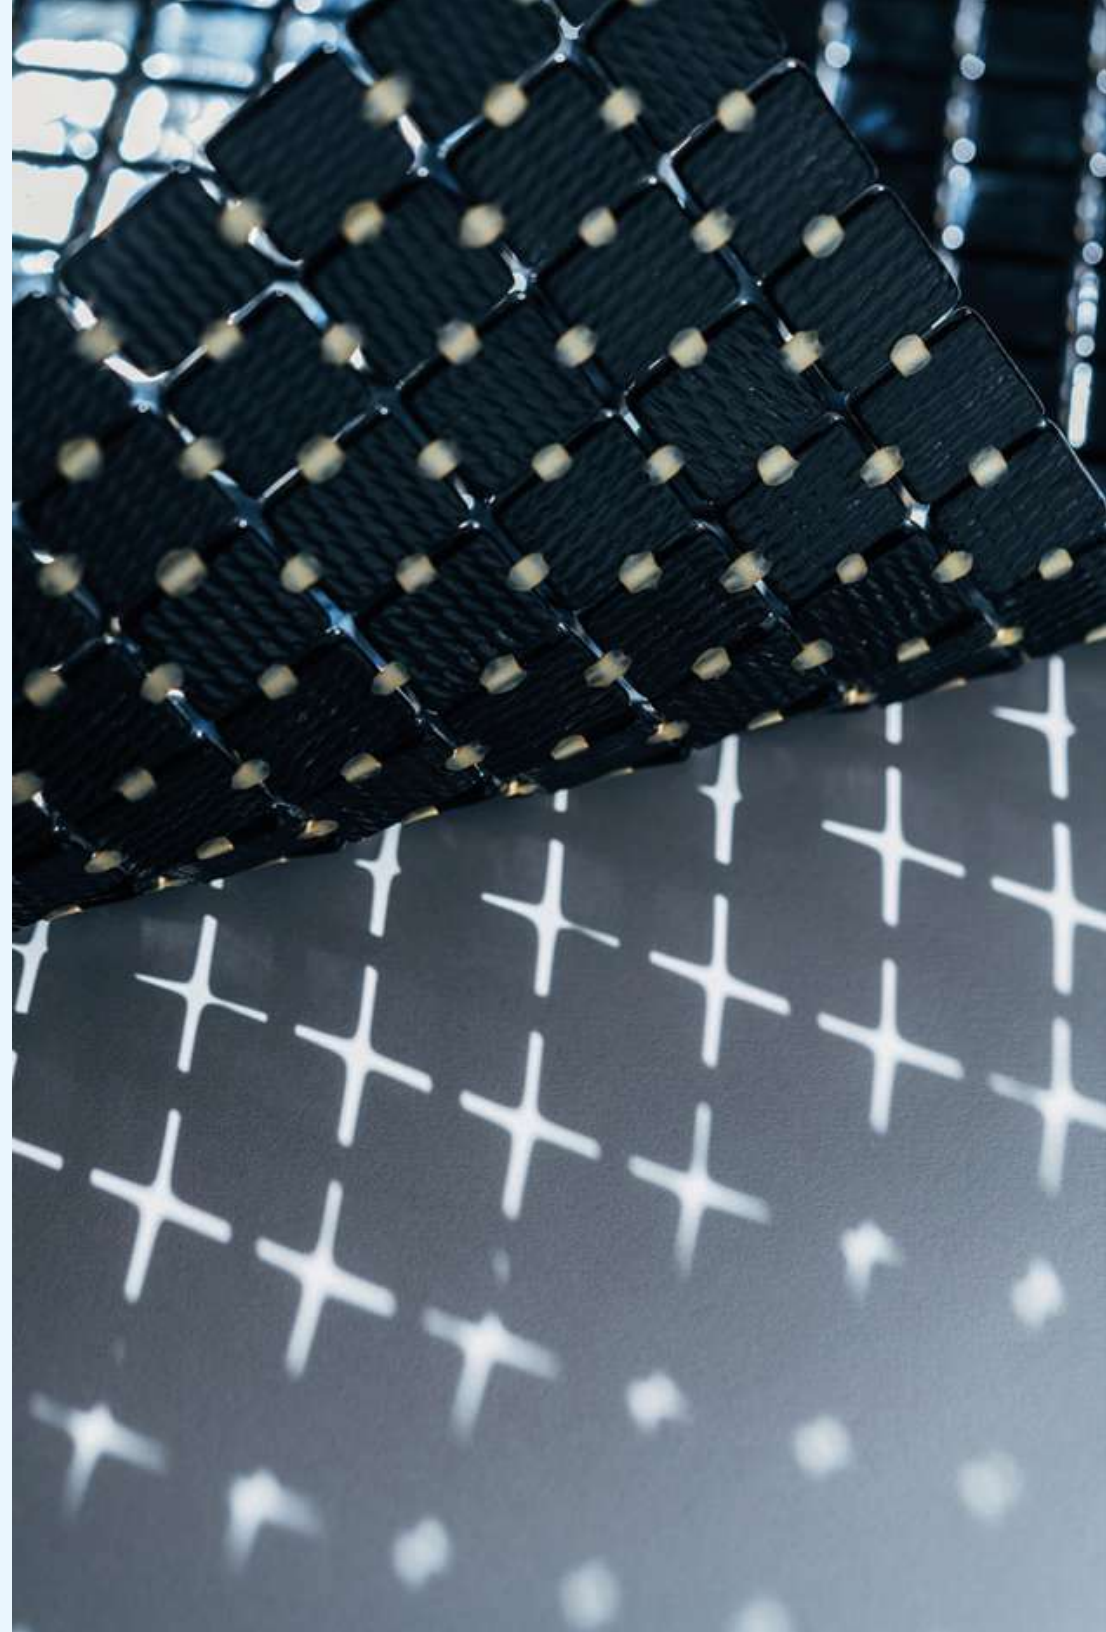

Pioneers in a unique, revolutionary and technologically advanced system since 1991. Developed by Ezarri, JointPoint® provides easy, uniform installation of mosaic tile on any surface.

This system leaves 92% of the mosaic surface free for applying the adhesive, which means much greater durability.

Its unique composition adapts to any curve or shape, ensuring maximum flexibility and strength. Working around obstacles is straightforward with the simple, easy-to-cut system.

Its flexibility and adaptability make it extremely easy to install, saving up to 25% of installation time compared to paper-based systems.

As it is not affected by moisture, there is no expansion, shrinkage or breakage.

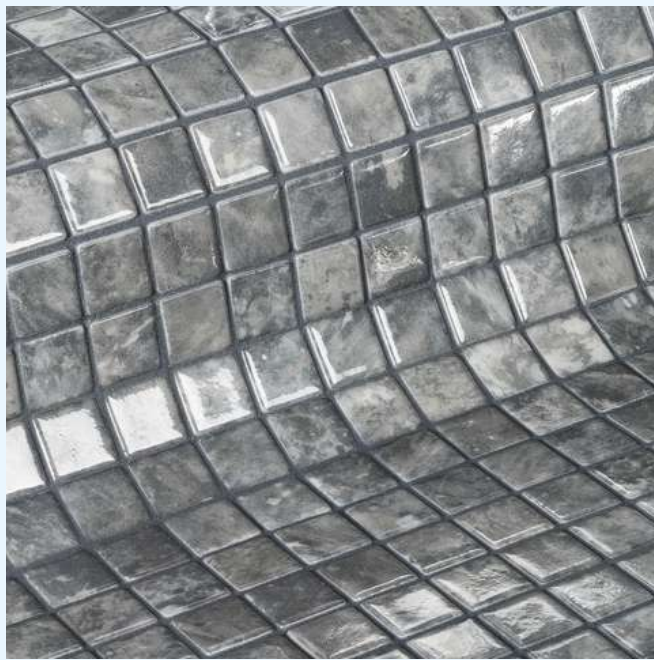

CELESTITE

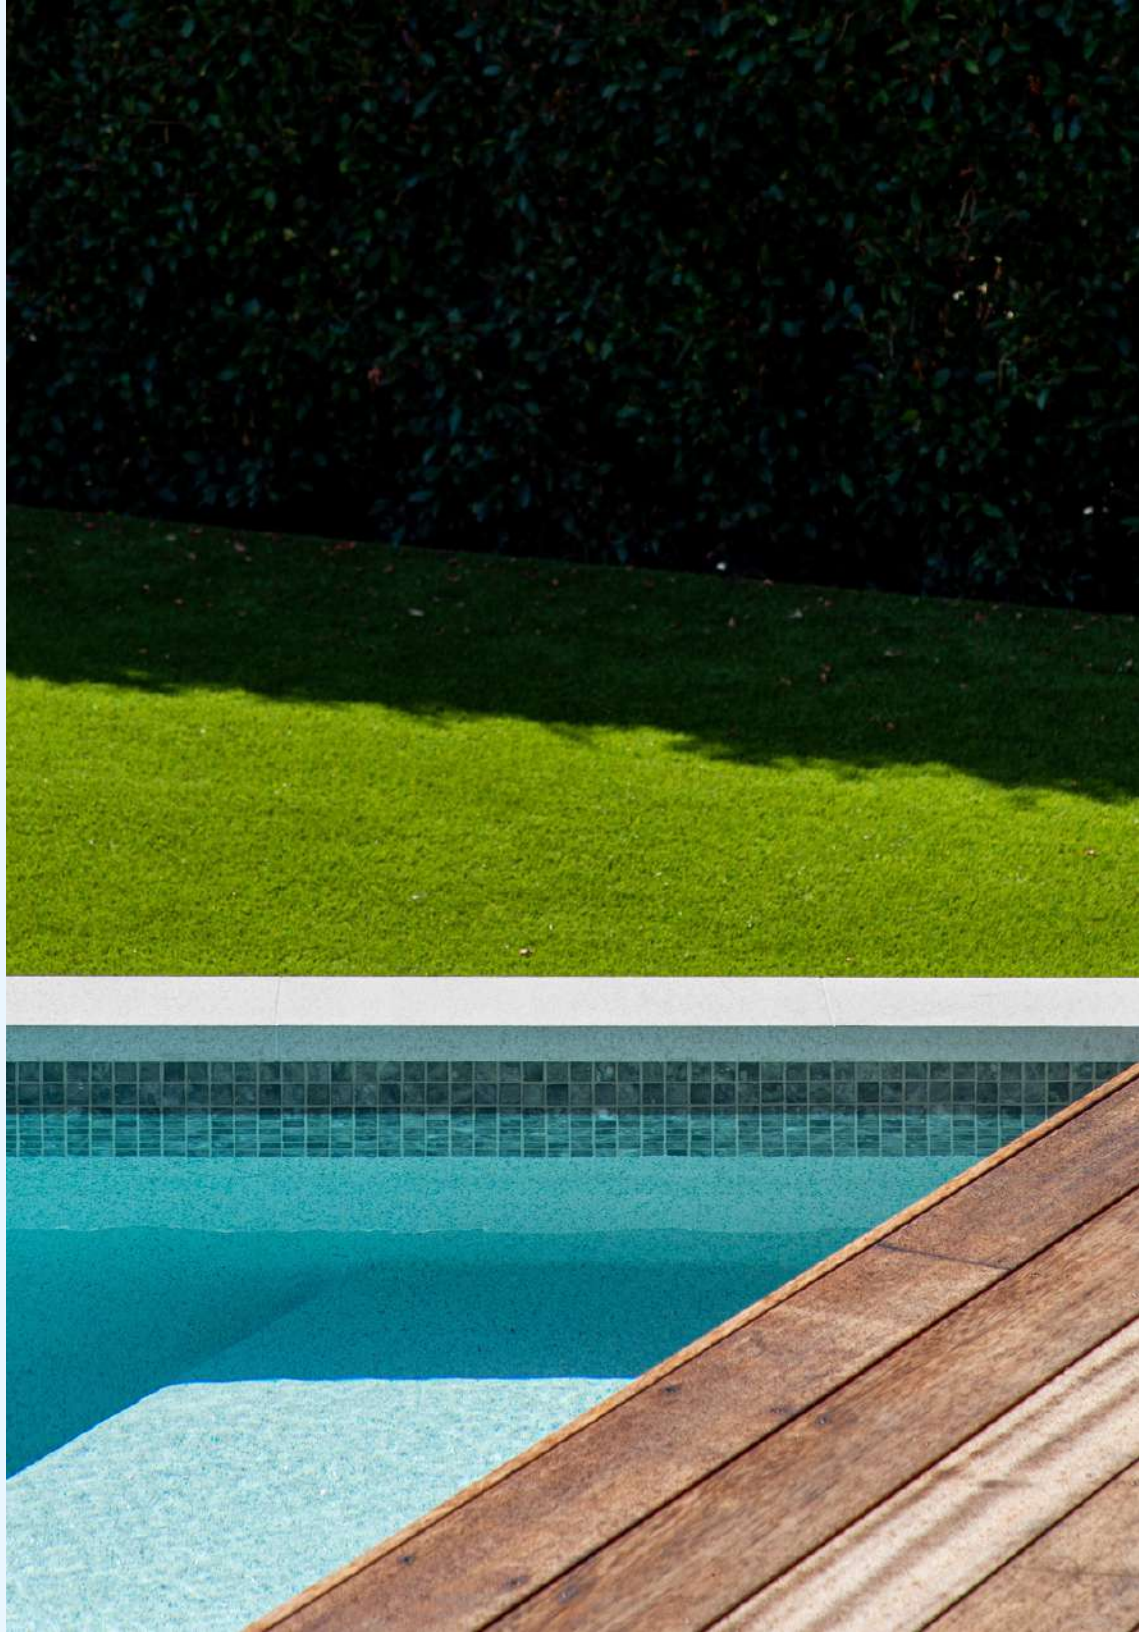

THE GEMMA COLLECTION

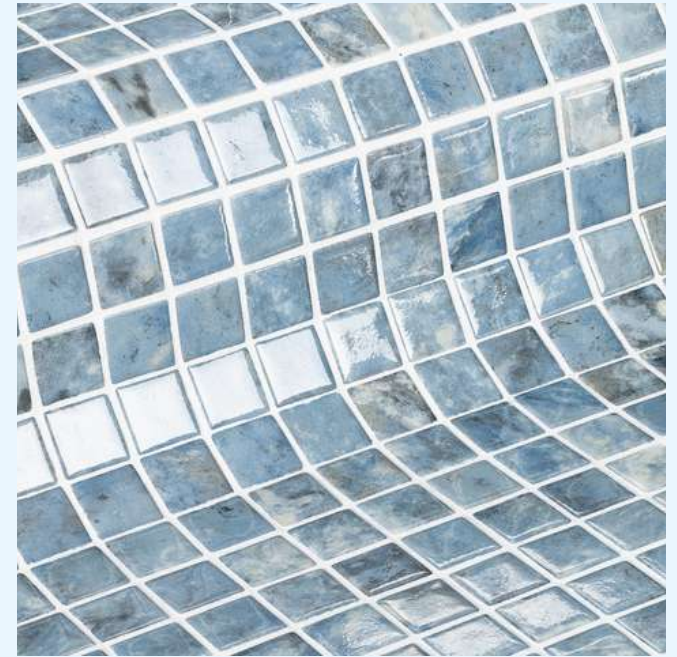

Every gem is different. Each one is unique. Special, full of shades. That is how we conceived our Gemma Collection.

Each mosaic has unique marbled and infinite reflections, ideal for achieving the ultimate expression of beauty. Always unique.
